INDEX BY BODY SYSTEM

BILIARY TRACT, LIVER, SPLEEN AND PANCREAS

	Page
Ultrasound findings in hepatic mycobacterial infections in patients with acquired immune deficiency syndrome (AIDS)	36
Abdominal ultrasonography following laparoscopic cholecystectomy: a prospective study	111
Focal echogenic lesions in the spleen in sickle cell disease	114
Duplex Doppler detection of hepatic artery thrombosis following liver transplantation	180
Accumulation of ^{99m}Tc-hydroxymethylene diphosphonate by liver metastases of prostatic adenocarcinoma	209
Tumefactive biliary sludge: a sonographic pseudotumour appearance in the common bile duct	251
Torsion of the gall-bladder on ultrasound – differentiation from acalculous cholecystitis	285
MR imaging of a carcinoid tumour of the liver	287
Hepatic arterial haemodynamics changes following intra-arterial angiotensin II infusion: duplex/colour doppler sonography	321
Intrahepatic biliary stones: imaging features and a possible relationship with Ascaris lumbricoides	325
Direct cellulitic spread as presentation of a liver abscess – ultrasound, CT and contrast imaging	364
Liver hamartomas in tuberous sclerosis	421
Papillary adenoma of the gall-bladder in a child of 9 years	432
Ultrasound demonstration of traumatic fracture of the pancreas with pancreatic duct disruption	434

BONES AND JOINTS

Thyroid acropachy in a single digit	58
A technique for magnetic resonance imaging of the temporomandibular joint	127
The value of plain film findings in hydatid disease of bone	265
Computed tomography of healing condylar fractures with some clinical correlations	269
Titanium lines: a manifestation of metallosis and tissue response to titanium alloy megaprostheses at the knee	274
Intraosseous lipomas	348

BREAST

Wire localized biopsy of breast lesions: a review of 425 cases found in screening or clinical mammography	14
Mammographic accuracy and patient age: a study of 297 patients undergoing breast biopsy	23
Infiltrating syringomatous adenoma of the breast – appearances on mammography and ultrasonography	62
Non-invasive ultrasound localization of impalpable breast lesions	337
Mammography in the assessment of response to medical treatment of large primary breast cancer	339

CARDIOVASCULAR

Lower limb colour flow imaging: a comparison with ankle:brachial measurements and angiography	91
CT demonstration of extravasated contrast medium from traumatic rupture of the gastric artery	280
Wandering intravascular bullet with aortic pseudoaneurysm	355
Thrombosis of the inferior vena cava – an unusual presentation of protein C deficiency	357
Ultrasound anatomy of the left gastric vein	396
Colour flow mapping in the diagnosis of the calf deep vein thrombosis	399

CENTRAL NERVOUS SYSTEM (INCLUDING SKULL AND SPINE)

Unusual computed tomographic appearances of meningioma initially misdiagnosed as an intrinsic tumour	60
MRI diffusion-weighted imaging of the brain: contributions to image contrast from CSF signal reduction, use of a long echo time and diffusion effects	82
Spontaneous thrombosis of a spinal dural AVM (Foix-Alajouanine Syndrome) – magnetic resonance appearance	134
MRI demonstration of pontine and thalamic myelinolysis in a normonatremic alcoholic	137
Computed tomography of vertebral tuberculosis: patterns of bone destruction	196
MRI: early onset of changes in Wallerian degeneration	311
Pseudoarthrosis complicating ankylosing spondylitis – appearances on magnetic resonance imaging	359
Thyrocervical arterial supply to an intracranial dural arteriovenous malformation	362
CT cisternography in the investigation of cerebrospinal fluid rhinorrhoea	403

DIGESTIVE TRACT AND ABDOMEN

The small bowel enema: a ten year review	46
Perineal herniation	49
Is the appendix where you think it is – and if not does it matter?	100
The mucosal rosette: a peri-ampullary pseudotumour within a duodenal diverticulum	117
Pneumo-omentum following perforated greater curvature gastric ulcer	119
Prolapse of an ampullary tumour beyond the duodeno-jejunal flexure	141
Colonic sonography: preliminary observations	200
Imaging of widespread plexiform neurofibromatosis	211
Pericolic abscess secondary to torsion of an appendix epiploica	216
Large bowel strictures in retroperitoneal fibrosis	282
Utility of the instant (unprepared) enema in Crohn's colitis	351
The role of angiography in the investigation of acute or chronic gastrointestinal haemorrhage	382
A radiological study of abdominal tuberculosis in a Saudi population, with special reference to ultrasound and computed tomography	409
Combined conservative and percutaneous management of a perforated duodenal ulcer	426

EAR, NOSE, THROAT, MOUTH AND EYES

The prevalence of paranasal sinus disease in HIV infection and AIDS on cranial MR imaging . . . 166
Radiological features of epidermal inclusion cyst of the tympanic membrane . . . 214
Soft tissue neck radiography for displaced dental prostheses . . . 424

EDITORIALS, REVIEWS, OPINIONS AND PERSONAL VIEWS

CT portography and delayed high dose iodine CT . . . 1
Staging of cervical and endometrial carcinoma . . . 7
Pregnancy and work in diagnostic imaging . . . 75
Staging of Wilms' tumour . . . 77
Staging of testicular germ cell tumours . . . 149
Intravenous cholangiography revisited . . . 223
The role of radiology in the staging of neuroblastoma . . . 226
The staging of hepatocellular carcinoma . . . 297
The staging of pancreatic adenocarcinoma . . . 373

ENDOCRINE SYSTEM

Ablation of mediastinal parathyroid adenomas by superselective embolization of the internal mammary artery with alcohol . . . 170

HAEMOPOIETIC, LYMPHATIC, RETICULOENDOTHELIAL SYSTEMS

The linear echogenic hilus in cervical lymphadenopathy – a sign of benignity or malignancy? . . . 262

INTERVENTIONAL TECHNIQUES

The role of percutaneous nephrostomy in malignant urinary tract obstruction . . . 32
Balloon-expandable intravascular stents in atherosclerotic iliac artery stenosis: preliminary experience . . . 189
Transpopliteal angioplasty of combined iliofemoral occlusions . . . 193
The Venflon 2 intravenous cannula used for arterial catheterization . . . 205
Palliation of inoperable biliary obstruction with self-expanding metal endoprostheses: a review of 77 patients . . . 245
Treatment of inoperable hepatocellular carcinoma by transcatheter arterial chemoembolization using an emulsion of Cisplatin in iodized oil and gelfoam . . . 315

PAEDIATRIC

Premature tracheobronchial, laryngeal and costochondral cartilage calcification in children . . . 52
Normal symphysis pubis width in children . . . 56
Can ultrasound reliably detect renal scarring in children with urinary tract infection? . . . 177
Dysembryoplastic neuroepithelial tumour as a potentially treatable cause of intractable epilepsy in children . . . 255
A further diagnostic test in neonatal/infant solid renal mass: two cases of mesoblastic nephroma showing uptake of Tc99mDMSA . . . 259
Hypophosphataemic rickets after ifosfamide treatment in children . . . 345
The facial profile in the diagnosis of fetal abnormalities . . . 389

REPRODUCTIVE SYSTEM

The ultrasound appearances of testicular microlithiasis ('snow storm testis'): a case complicated by testicular seminoma . . . 65
Ultrasound appearances of the rete testis . . . 121
Primary carcinoid tumour of the testis – ultrasound appearances . . . 290
Pelvic pain syndrome – successful treatment of a case by ovarian vein embolization . . . 429

RESPIRATORY TRACT AND MEDIASTINUM

The computed tomographic appearances in chronic berylliosis . . . 26
Congenital diaphragmatic hernia – a review of pre- and postoperative chest radiology . . . 104
Acute pulmonary complications in immunocompromised non-AIDS patients: comparison of diagnostic accuracy of CT and chest radiography 159
Bronchiolitis obliterans: high resolution CT findings and correlation with pulmonary function tests . . . 236
The effect on apparent size of simulated pulmonary nodules of using three standard CT window settings . . . 241
Mediastinal widening – a valuable radiographic sign of superior vena cava thrombosis . . . 415

TECHNIQUES, APPARATUS, CONTRAST MEDIA AND TRIALS

Phosphor plate computed radiography: response to variation in mAs at fixed kVp in an animal model. Potential role in neonatal imaging . 39
Iodixanol in femoral arteriography (phase III): a comparative double-blind parallel trial between iodixanol and iopromide . . . 96
Phase III trial of oral magnetic particles in MRI of abdomen and pelvis . . . 183
An assessment of Gd-DTPA as a CT contrast agent in the renal tract . . . 278

URINARY TRACT

Side effects and patient acceptability of transrectal biopsy of the prostate 125
Rhabdomyolysis following grand mal seizures presenting as a delayed and increasingly dense nephrogram 139
Transrectal ultrasound appearances of granulomatous prostatitis 174
Sonographic detection of renal transplant cortical calcification 207
Magnetic resonance imaging with gadolinium-DTPA for assessment of bladder carcinoma and its response to treatment 302
Ultrasonography and plain film versus intravenous urography in ureteric colic 333
